Initiated and carried out by 40mcube, in partnership with the company Self Signal, **GENERATOR** is a **professional training** for young visual artists and a **residency** for curators.

A committee of professionals composed of an exhibition curator or an art centre director, an artist and a representative of 40mcube selects **four visual artists each year, who have graduated for at least two years, and gives them the means to fully focus on their artistic practice for a period of seven months**. They develop and deepen their research work, produce works, build their professional networks and acquire good practices (administrative, legal, social, etc.).

GENERATOR offers **individualized support, a studio, financing and privileged meetings with contemporary art professionals** in France and abroad.

GENERATOR selects **two to four curators each year for a one-month prospecting trip** in Brittany. They meet artists and professionals who live there and write one or two texts on the work of the artists in the program.

GENERATOR offers each of them a **workspace, funding and privileged meetings with contemporary art professionals** in Brittany.

With the collaboration of the art centres La Criée (Rennes) and Passerelle (Brest), Frac Bretagne, the Archives de la critique d'art (Rennes), Documents d'artistes Bretagne and a.c.b. - contemporary art in Bretagne, this programme brings together and makes available to young artists and curators **the critical and technical skills gathered in Brittany**, a dynamic territory composed of numerous contemporary art structures dedicated to the exhibition, collection, research and publishing.

The partnerships

40mcube Created in 2001, **40mcube** is an exhibition space for contemporary art, a studio for the production of works, a place for artists-in-residence program residencies, a professional-training organisation and an office for organisation of contemporary art projects.

40mcube produces works, diffuses them in the form of exhibitions or interventions in the public space, sets up artists' residencies, accompanies the commission of works, promotes and mediates them to the public.

40mcube occupies a building in Rennes with an exhibition space of 170m², a production studio, offices and meeting rooms. In Liffré, near Rennes, 40mcube has created the Hub-Hug, a unique and experimental space of 200m² dedicated to residencies for artists and curators, studios, workshops, and presentations of works that give rise to meetings with the public.

Private partnerships Throughout their training, the artists are welcomed in the premises of **the company Self Signal**, which provides them with workspaces and materials and gives everyone, according to their needs, access to professional machine tools and the skills of the company's employees: locksmithing, screen printing, carpentry, digital cutting... or more than 30 different trades.

The law firm Avoxa supports 40mcube in the elaboration of standard contracts studied with trainees and delivered in the form of an educational booklet.

The media partner **02 magazine** is a contemporary art magazine created in 1997. The magazine 02 is distributed in more than 15,000 copies in France, Belgium and Switzerland; bilingual, it participates in many fairs in France and abroad including Fiac, Art Brussel, Artissima, Liste, Artorama.

The magazine 02 has been a partner of GENERATOR since its creation in 2014.
